

INSTRUCTIONS IN CASE OF DAMAGE/LOSS

These are instructions to be followed in case of loss or damage

For further details regarding claims handling, please contact

the local AIG Claims Representative

www.aig.com/marinedirectory

or send an e-mail to claims.sweden@aig.com

1. Inspect the goods immediately upon receipt

Should there be visible damage or suspicion of damage, please make a note on the freight document (both on your copy and the carrier's) while the carrier is still present. If possible, try to get the carrier to sign as well. If the actual loss or damage is later established, it is important that a written notice of loss is sent to the carrier immediately upon discovery.

Filing claims against the carrier:

- a) Does not prejudice the claim on your policy;
- b) Will protect any rights you have under the Bill of Lading/delivery note;

2. Please contact the nearest AIG office immediately

The contact details of the nearest AIG office can be found at:

www.aig.com/marinedirectory

Please await further instructions from AIG before unpacking or moving the goods

3. Minimise the loss or damage

It is the duty of the assured to take care of the damaged goods. Even if damaged, it is still your property and cannot be abandoned.

4. Do not change the condition of the consignment or the packing before a surveyor is present

In order to minimise the risk of recovery rights being prejudiced, do not dispose of the goods in such a way that the state of the goods is changed either before you get an approval by AIG to do so or a surveyor is present.

5. Documentation of claims

- a) CMR waybill/ Bill of lading/ Air Waybill and/or other transport document
- b) Commercial invoice
- c) Notice of loss made to the carrier
- d) Correspondence exchanged with the carriers and/or other parties regarding the liability for the loss or damage
- e) Photos or Survey report, if available
- f) Shipping invoices, packing list, etc.
